To Whom It May Concern:

This letter is written on behalf of Palm Beach Seventh-day Bilingual School in regards to the decision to deny on the grounds of an untimely filed request for review as per the information relayed in CC Docket No. 02-6. We are petitioning for reconsideration by the Bureau. In reviewing the previous documents we submitted to you, we realized that we inadvertently included the wrong Funding Request Number in the second appeal letter we mailed to the Federal Communications Commission on July 5, 2015.

Permit us to relay the events and circumstances regarding the need for an appeal and the supplication for reconsideration. It has been the custom, since we were awarded the grant, that the service provider, Robert Elshot working for AA Technology, would provide the proper documentation for renewal and revision each year. Thus, when I, James Previlus, received the first email requesting documentation and proof, I immediately contacted Mr. Elshot to inform and forward the email to him. It was my understanding that he would submit everything on time. During the interim, the school was attempting to finish a new-building construction project and I trusted that the service provider would diligently answer USAC's request. In January 2015, USAC made the decision to request a refund of all funds given to the school. When I received the letter, I contacted our service provider who explained that he had been out of the country and was unable to provide proper documentation on our behalf. I attempted to contact USAC to request an extension, but was told that I was too late and would need to appeal to the FCC.

List ABCDE

In June, we submitted an appeal letter, not only requesting an appeal, but also providing proof of payment to Comcast, AT&T, and our service provider AA Technology as per the original documentation request of USAC. As aforementioned the letter listed the incorrect Form 417 Application Number of 907224 and FRNs 2469403 and 2469467. The letter and documentation for review and appeal were submitted in time, however we perceive that you may have denied our request for review due to the erroneous numbers listed on the letter- which would result in us sending the right information using an incorrect case number.

As such, we are petitioning for reconsideration of our school and all affiliated applications and request numbers. We cannot afford to do without the program, much less to return the substantial amount received over the years.

Should you have any other questions or require further documentation, please do not hesitate to contact us at (561) 379-4291 or email at drjamesprevilus@yahoo.com. We look forward to your reply.

Sincerely,

James Previlus
School Principal
